Echoing swamps, talking beer cans. Midnight mystery trains & singing tumbleweeds. Lonely soldiers & voodoo chain gang ghosts. "Snakebite: Blacktop Ballads and Fugitive Songs". Stan Ridgway sings 16 brand new two fisted tales. Buckle up. Its going to be a bumpy ride. New work from the Wall Of Voodoo mastermind.

Stan Ridgway continues his remarkable history of American story telling, with this, his latest release Snakebite. A truly outstanding record that places him in the good company of Johnny Cash, Leonard Cohen and Tom Waits as songwriter and story teller. A follow-up to 1999's "Anatomy" and in the same vein as 1995's "Black Diamond", Stan's "Snakebite" is a surprisingly lush recording, but the bite here won't heal so easily...
